Professional Summary:

Highly motivated front-end developer with 6 months of professional experience and extensive project work in building responsive and user-friendly web applications using React JS, HTML5, CSS3, JavaScript, and Tailwind CSS. Skilled in creating scalable and maintainable code with a strong focus on user experience, accessibility, and modern design principles.

Technical Skills:

- **Front-End Development:**
Proficient in React JS, HTML5, CSS3, Tailwind CSS, and JavaScript. Experienced with building reusable UI components, handling state management using React Hooks, Context API, and Redux, and creating responsive, customizable layouts using a utility-first approach with Tailwind CSS.
 - **Design & Prototyping Tools:**
Skilled in Figma for designing and prototyping visually appealing, user-friendly interfaces.
 - **State Management & Libraries:**
Experienced in managing application state with React Router, Redux, Context API, and libraries like jQuery and Lodash.
 - **CSS Preprocessors:**
Familiar with Sass and Less to write modular and efficient CSS3 code, creating responsive, visually appealing designs.
-

Professional Experience:

Front-End Developer

L. M. Softech, Bareilly — (6 months)

Key Responsibilities:

- Developed and launched responsive websites using ASP.net, React, and Tailwind CSS, resulting in a 25% increase in user engagement.
 - Collaborated with cross-functional teams to create scalable, maintainable, and reusable code.
 - Utilized HTML5, CSS3, JavaScript, and Tailwind CSS to enhance user-friendly web applications, improving overall site performance and responsiveness.
-

Education:

Bachelor of Technology in Computer Science

K.I.T.P.S., Moradabad — *Graduated in 2024*

Diploma in Engineering

Government Polytechnic, Shahbad, Rampur — *in 2021*

High School

S. S. Inter College, Moradabad — *in 2018*

Projects:

- **JavaScript Calculator:**
Designed and developed a fully functional JavaScript calculator using HTML, CSS, and JavaScript.
- **Online Voting System:**
Built an online voting system to facilitate seamless participation for users, candidates, and administrators.
- **e-PaathShala (Student Management System):**
Developed a web-based student management system to manage student attendance, progress, events, fees transactions, and academic records for colleges.
- **Currency Converter Web Application:**
Created a currency converter web app using React JS, API integration for real-time currency rates, and Tailwind CSS for responsive design.
- **To-Do App:**
Developed a simple to-do list application using React JS, allowing users to add, delete, and mark tasks as complete. Implemented local storage for data persistence.
- **Theme Switcher App:**
Built a theme switcher web application using React JS, enabling users to toggle between dark and light modes. Implemented Context API for global state management and Tailwind CSS for easy theme customization.
